Connect Platform 19.1.1

This document describes the issues included in the BASCONNECT™ software release.

Fixes

Fixes include corrections for the following issues:

Application	*Category*	*Issue*	*Description*
Back Office	Collections	12261	Resolved issue of missing users from selection field when reassigning actions in Collections.
		12267	Fixed issue preventing users from completing an external transfer from **Manage > Guarantor Collections.**
		12272	Fixed system slowness for Insurance Collections task reassignment activities.
	Reports	12262	Fixed issue causing a time stamp to display on all report date/time fields exported to Excel, even if not present in Back Office.
		12263	Resolved printing issue causing the trailing zeros to not display in reports and statements.
