Connect Platform 18.1.1

This document describes the content included in the BASCONNECT™ software release.

Enhancements

Enhancements include new features and modifications for the following issues:

Application	*Category*	*Issue*	*Description*
Back Office	Accounts	9293	**Action** field updated on **Account / Collections** tab to display the field text until the focus is removed from the field.
	AQI	10694	Added 2018 AQI changes.
	Outcomes	10620	The **Measure** field on the **Outcomes** page expanded to accommodate 10 characters.
	Payments	10481	Added **New Balance** field to **Guarantor Payment / Distributions** tab to calculate balance following an adjustment.
	Preferences	9555	Added **Practice** to the **Import ERA Payment – Search Criteria** section on the **Preferences / Payment Batch** tab.
	Reports	10820	Updated the ePreop extract to accommodate changes to the format.

Fixes

Fixes include corrections for the following issues:

Application	*Category*	*Issue*	*Description*
Back Office	Cases	9459	Modified logic to require **City** field if updating a plan's insurance address on a case or person record.
		10673	Fixed issue generating a validation error message when viewing a case on hold after the claim has been submitted.
	Charge Batches	10213	Fixed display of Anesthesia Case Provider Time at bottom of **Concurrency Log** tab.

Application	*Category*	*Issue*	*Description*
	Charge Entry	6819	Fixed tabbing on **Coding** window to not skip the **Modifier** field.
	EDC	10789	Resolved issue causing the Member # to not populate for the Subscriber # when the EDC configuration option is selected.
	External Collections	9278	Modified logic to disallow sending a service fee to EXCOL when the fee has been reversed.
		9445	Fixed issue preventing search by Type and Organization name on the **External Collections / Transactions** tab.
	Image Batches	10825	Fixed search functionality to return correct records when performing a posted/unposted scan batch search.
	Payments	10706	Resolved issue generating a validation error message when trying to save an external collection distribution.
	Procedure Codes	10477	Fixed **Expires** checkbox functionality on the **Procedure Codes** page to remove the expiration date when the checkbox is unchecked.
	Roles	9901	Fixed logic to disallow user with Account view only rights to perform merge accounts function.
