

Connect Platform 18.3.3

This document describes the issues included in the BASCONNECT™ software release.

Fixes

Fixes include corrections for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Charge Entry	11647	Fixed issue causing internal database error when submitting a case contains an MD working solo and a plan set to <i>Bill CRNA Only</i> and <i>Generate One Claim per Provider</i> .
	Fee Schedules	11648	Fixed issue allowing modification of a procedure code fee in the fee schedule and then closing the window without saving. A save prompt has been added to the fee schedule when making updates to the procedure codes.
