

Connect Platform 21.4

This document describes the issues included in the CONNECT software release.

Enhancements

Enhancements include new features and modifications for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Accounts	13517	Fixed copy/paste functionality to allow right-clicking of mouse to copy/paste into Account Notes.
	Cases	13620, 14197	Added Note field to the following: <ul style="list-style-type: none">• Create Case Hold Reason window on the Case / Case & Claim Holds tab• Update Case Hold Reason window on the Case / Case & Claim Holds tab• Update Case Hold Reason window on the Charge Batches / Case Holds tab Case Hold Reason can be added/updated in the windows listed above, or still via the Note table (below the Case Hold Reason table) by clicking the Add button.
	Charge Entry	14035	Added ALT + Y hotkey to the Case / General Case Information tab to immediately jump to the Case Reporting Type dropdown.
	Codes	13921, 14077, 14252, 14253	Completed the following code updates: <ul style="list-style-type: none">• Janssen COVID-19 vaccine procedure codes• WPC (Remittance, Taxonomy)
	Image Viewer	14111, 14071	Added Created By: and At: fields to the bottom of the Image Viewer to display the user and date/time of the image upload.
	Preferences	14015	Added new preference to the General tab: Load next image set in batch to begin the automatic downloading of the next image set in a batch when one image set is opened.

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
		14103	Updated the preference on the General tab: Force all typing to Uppercase to apply to case data being created from EDCs.
		14108, 14221	Added new preference option to the General tab: Force all typing to Uppercase throughout instance . The preference is only available for Administrators and, when selected, will apply to all users in the application instance.
		14217	Added new preference option to the General tab: Disable Scanning Support . If selected, the Scanner field drop down is disabled on the Image Viewer page. This helps to prevent application crashes being experienced by some users.

Fixes

Fixes include corrections for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Charge Entry	14060	Fixed issue causing Referring Providers to display after being deselected in Admin > Facilities .
		14296	Fixed issue for cases created from the EDC Files tab and Image Batches tab in a Charge Batch to display all referring physicians, including those not affiliated to the facility.
	ERAs	14020	Resolved issue causing a Java null point error when importing an ERA file.
	General	14000	Fixed issue causing the End User License Agreement form to close for some clients before a user could click to accept it.
	Preferences	13509	Fixed Force all typing to Uppercase preference to apply to Account Notes.
