

Connect Platform 22.4.4

This document describes the issues included in the CONNECT software release.

Fixes

Fixes include corrections for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Charge Entry	15923	Fixed issue preventing an updated Misc. Insurance Plan Name to be saved and retained on the case.
	Codes	15957	Fixed a display issue with diagnosis codes, incorrectly showing an error check as non-specific.
