

## Connect Platform 24.2.13

This document describes the issues included in the CONNECT software release.

### Fixes

Fixes include corrections for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Accounts	17776, 17777	Fixed issue causing two Accounts IDs to be returned with every Account Search, and the second account number not belonging to the patient or even necessarily to the practice.
	Reports	17785	Fixed <i>AR Aging</i> report issue that was erroneously displaying numerous duplicate line items in the generated report.
