

Connect Platform 24.2.9

This document describes the issues included in the CONNECT software release.

Enhancements

Enhancements include new features and modifications for the following issues:

| <i>Application</i> | <i>Category</i> | <i>Issue</i> | <i>Description</i> |
|--------------------|-----------------|--------------|---|
| Back Office | Codes | 17610 | Added 2024 Q2 code updates: <ul style="list-style-type: none">Procedure Codes (HCPCS Short/Long, PPRRVU, CPT Short/Long, RVG) |

Fixes

Fixes include corrections for the following issues:

| <i>Application</i> | <i>Category</i> | <i>Issue</i> | <i>Description</i> |
|--------------------|-----------------|--------------|--|
| Back Office | Charge Batches | 17485, 17653 | Fixed logic to allow a user to select the Exclude from Concurrency Checking option at either the Case or Provider Time level for Case Error 1025 or 1141. If selected, the error is ignored, does not appear in the Charge Batch Error Check tab, and the user can proceed with case submission. |
