

## Connect Platform 4.0.17

This document describes the issues included in the BASCONNECT software release.

### Enhancements

Enhancements include new features and modifications for the following issues:

Application	Category	Issue	Description
Back Office	Payment Entry	CNCT-7043	Modified cursor starting position to place cursor in <i>Number</i> field when creating a new insurance payment.
	External Collections	CNCT-7044	Removed auto-search functionality on all External Collection forms. This includes the <i>Pending, Transactions, and Files</i> forms.
	Charge Entry	CNCT-7011	Modified patient search to return Create Person form when only a Social Security Number is entered, and no results are found.

### Fixes

Fixes include corrections for the following issues:

Application	Category	Issue	Description
Back Office	Collection	CNCT-7019	Resolved error being generated when printing collection letters on actions.
	Charge Entry	CNCT-6832	Patient search drop down now loads correctly when creating new cases. Additionally, cursor appropriately populates in <i>Last Name</i> field.
	External Collections	CNCT-7026	Agency is now available on <i>Create External Collection File</i> when only one agency is available.
	Charge Entry	CNCT-7006	Provider search functionality now returns appropriate results when searching for a provider on the Coding Form.
	Administration	CNCT-6991	Updating Insurance Plans no longer incorrectly returns the message “ <i>All Paper Claim Formatting will be lost. Do you wish to remove previous formatting?</i> ”

Administration	CNCT-7021	Updating Practices no longer incorrectly returns the message “ <i>Changing role type will discard any name changes already configured. Do you want to discard these name changes?</i> ”
Payment Entry	CNCT-7004	Down arrow key now appropriately activates the Roll To options when distributing insurance payments.
Charge Entry	CNCT-6898	Utilizing type search fields, such as CPT Code and Provider, now appropriately displays all data entered.
Charge Entry	CNCT-7059	Performing a Rebill 1, with an insurance change, now appropriately saves any modifications to the payer coverage set.
Reports	CNCT-7053	Exporting the Deposit Analysis reports to Excel, CSV, or PDF no longer generates an error.
