

## Connect Platform 4.5.14

This document describes the issues included in the BASCONNECT™ software release.

### Enhancements

Enhancements include new features and modifications for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Charge Batches	2114	Added ability for user to copy a charge batch from one practice to another.
	Payment Batches	9418	Added new fields, <b>Patient</b> and <b>New Balance</b> , to the <b>Service Lines</b> tab on the <b>Payment: New</b> and <b>Payment: [ID]</b> pages.
		9419	Logic added to retain selections in the <b>Show Zero Balances</b> and <b>Show Insurance Balances</b> checkboxes from one guarantor payment entry to the next.
Suspense	3672	Suspense payments can now be distributed to zero balance service fees.	

### Fixes

Fixes include corrections for the following issues:

<i>Application</i>	<i>Category</i>	<i>Issue</i>	<i>Description</i>
Back Office	Suspense	9374	Changed functionality to not allow user to open multiple windows simultaneously and post multiple suspense distributions.
	Payment Batches	9556	Fixed issue generating an error when saving guarantor payments.
